July, 2010

Dear Members of Faith Community Bible,

The evangelistic/medical outreaches scheduled at Easter for our Tijuana churches were canceled, as you may remember, because of the earthquake in Mexicali and the mountain area, La Rumorosa. The outreaches were re-scheduled for early June, and, with great anticipation and promotion in their areas, the churches worked to welcome the group of 20 adults and young people from the Imperial Valley churches. Together, they worked to preach the Gospel through puppets, tracts, Bible studies as well as the determination of vision problems, heart and blood pressure disease, depression, and other physical needs. Praise the Lord for the many decisions for Christ and pray for these new converts as the pastors do the follow-up ministry.

Pastor Leo and his wife, Dr. Eusebia, spent the four days with the group, and Dr. Eusebia reports that around 200 women consulted with her for different reasons, but it was clear that what they needed, more than anything, was salvation through Christ. Several of the Mexican pastors and the camp caretakers worked with the group of Americans in the three Tijuana churches. Please pray for all the people who heard about Christ and for those who accepted Him as their Savior. Pray, also, for the, approximately twelve churches as they promote, plan, and prepare for the Family Camp at the end of July:

In Christ,
Jim and Fay Tucker for all

Campamento Familiar Horeb
