**THANK YOU!**

Dear Pastor Jason and Members of Faith Community,

A couple of months ago, we told you about an evangelistic outreach of Calvary Baptist Church, San Luis, Mexico with Pastor Javier. He and his sons, Pancho and Isaac, have been working there for some time, and they learned that the government was going to make some land available to people who would accept and use it as in 'homesteading.' Pastor Javier took possession of two lots and, immediately, built a small shed on the property. He put the name of our group of churches, IBCAR, on the shed as shown in the picture.

A Boise, Idaho, church has been partnering with the San Luis churches for several years, and they wrote this year about helping with a project that would enhance the ministry in San Luis. Pastor Javier had been thinking about a shelter for the meetings held on the property, and the Boise church agreed with him that a ramada would be very good for the work. A group from the Boise church came and constructed the ramada along with several pastors and believers of our churches. The ramada can be enclosed later on and, thereby, become a regular church building. Pray for the work here in this new part of San Luis, Mexico.

Please continue to pray for  
**Campamento Familiar Horeb**
